All Dimensions in mm

Innovation Meditech Pvt. Ltd.

Sr. No.	Parameter	Specified Value
1.	Mains Voltage	230VAC, 50Hz, Single Phase
2.	Power Output	8.0Kw
3.	Output Frequency	Two pulse, Full Wave Rectified
4.	kVp range	40-100 kVp in 15 steps
5.	mA range	25-100mA
6.	mAs range	1-300 mAs
7.	X-ray tube	Stationary anode
8.	Focal spot nominal	2.6mm
9.	Target angle	19 °
10.	Collimator	Manual
11.	Exposure release switch	2 steps
12.	Digital Display	kV, mA and mAs
13.	Timer	Micro controller based
14.	Protection	Simultaneous Protection from excess selection of kV, mA, mAs and mains input voltage.

* Safety Standard: BIS IS7620:Part-1
 *Regulatory Requirement: AERB Type Approval

Enhance Image Quality With High Performance Micro Controller Controlled Panel
